

KANDURI AVINASH

B.Tech in Computer Science and Engineering | Amrita Vishwa Vidyapeetham

+91 9121188200 | kanduriavinashdj9666@gmail.com | linkedin.com/in/kanduri-avinash-822970313 | github.com/Kanduriavinash

PROFILE

B.Tech Computer Science undergraduate with hands-on experience building real-time computer vision systems, full-stack web applications, and database-driven platforms. Proficient in Python, Java, SQL, and applied ML/CV tooling including OpenCV, MediaPipe, and NumPy. Demonstrated ability to independently design, build, and ship complete end-to-end applications. Seeking Software/ML Engineering opportunities to apply technical skills at scale.

EDUCATION

B.Tech in Computer Science and Engineering | Amrita Vishwa Vidyapeetham, Kerala 2024 – 2028

- CGPA: 8.29

Higher Secondary Education (Class XII, State Board) | Sri Chaithanya Junior College, Hyderabad 2022 – 2024

- Percentage: 94.9%

Secondary Education (Class X, ICSE) | Loyola Public School, Guntur 2021 – 2022

- Percentage: 89.9%

INTERNSHIPS

Software Development Intern | SaiKet Systems Dec 2025 – Jan 2026

- Built innovative web solutions and user interfaces as part of the development team.
- Collaborated cross-functionally to deliver user-friendly, visually polished interfaces.

AI & Machine Learning Intern | ShadowFox Aug 2025 – Sep 2025

- Completed a 4-week virtual internship focused on applied AI/ML concepts and real-time project tasks.
- Delivered a final project presentation on AI concepts; recognized for exceptional performance.

PROJECTS

PhantomAI — Gesture-Controlled AI Camouflage System | Python, OpenCV, MediaPipe, NumPy

- Built a real-time computer vision app that triggers invisibility effects (Camouflage, Ghost, Freeze) via custom hand gestures, using AI-based human segmentation and hand landmark tracking on a standard webcam feed.
- Engineered a 4-state gesture recognition controller (MediaPipe Hands) with a debouncer for robust, low-latency mode switching.
- Designed a modular real-time compositing pipeline (8 decoupled modules — camera, tracking, segmentation, blending, UI) with a live HUD, picture-in-picture comparison view, and programmatic DSP-based audio synthesis with no external assets.
- Added MP4 video recording and PNG screenshot capture for demoing effects.

Cricket Scorer Pro — Live Ball-by-Ball Cricket Scoring App | HTML5, CSS3, Vanilla JavaScript

- Built and deployed a full-featured live cricket scoring web app supporting ball-by-ball scoring, toss simulation, dual-innings run chases, and full scorecards.
- Designed a persistent match-state system with browser localStorage for auto-save/resume and match history across sessions.
- Implemented complex domain logic for wicket management, partnerships, run-rate tracking, and dual-team ('two-sider') player support for informal matches.
- Deployed live via GitHub Pages; added printable/PDF scorecard export.

WorkHive — Recruitment Platform | Java, OOP

- Developed a recruitment platform to streamline the hiring process.
- Applied OOP principles to manage user roles and job application flows.

Retail Inventory Management System | DBMS, SQL

- Designed a database schema to track stock, sales, and supplier details.
- Used SQL for efficient querying and data integrity.

QuickCart — E-Commerce Website | HTML, CSS, JavaScript

- Built a fully responsive frontend with product listings and a shopping cart.

- Handled dynamic content and cart updates.

SKILLS

- **Languages:** Python, Java (OOP), SQL, JavaScript, C
- **Machine Learning & Computer Vision:** OpenCV, MediaPipe, NumPy, Core AI/ML Concepts
- **Web Technologies:** HTML5, CSS3, JavaScript, Next.js (basic), Responsive Web Design
- **Databases:** PostgreSQL, Oracle SQL, DBMS Design
- **Tools & Platforms:** Git, GitHub, Figma
- **Soft Skills:** Problem Solving, Leadership, Communication (Infosys Certified)

CERTIFICATES

- AI/ML Internship Certification — ShadowFox (Sep 2025)
- Introduction to Object-Oriented Programming in Java — DataCamp (Apr 2025)
- Oracle SQL Course Completion — Great Learning (Oct 2025)
- Soft Skills Training — Infosys Springboard (Nov 2025)
- Software Development — SaiKet Systems (Jan 2026)
